THE LABOR QUESTION.—The *Commercial Herald* of San Francisco, addresses the following sensible remarks to laborers:

"Killing the goose that layed the golden egg," was never more pertinently exemplified than by the action of our artizans and laboring classes. No one will deny that labor, of all descriptions, was better paid in California than in any other country on the globe. Our mechanics and daily operatives were in easy, prosperous circumstances. The returns of our Savings and Loan institutions afford an indisputable proof that they held large and constantly increasing deposits to the credit of the classes named. But they were dissatisfied. Like Oliver Twist, they wanted "more," and soon the "eight hour leagues" were organized, by virtue of which, mechanics and laborers were to receive a full day's pay for eight hour's work. What is the result? They have committed suicide while denying many important interests. They have increased the price of every article they consume in a corresponding ratio. They have effectually checked manufacturing enterprise, and stagnated business. They have rooted themselves out of employment, and extended an invitation to others who will work cheaper to replace them in our factories. They have combined and dictated inadmissible terms to their employers. They have arrayed themselves against capital, and require that capital should subsistatively yield to their demands. They have not been content to permit the labor market to regulate itself by the inexorable rules of demand and supply, but have assumed peremptory dictation. They are being silently but steadily supplanted in our workshops, and fields, and stores and houses, and ships. Their combinations have so heightened the price of all manufactured goods, and the cost of all industrial products, that they have reacted on themselves, who are the most numerous consumers. The Schuylkill miners' strike added a dollar per ton to the cost of coal, and by so much increased the price of every article manufactured by steam, the cost of transportation, and the rates of passage by rail and steamer. The East is supplied by skilled workmen from Europe at the rate of 150,000 per annum. Arriving in this country they gladly engage at rates from one-third to one-half less than are paid in this State—even more than twice as great as they were accustomed to receive in their native countries. Is it astonishing that Western cities can place their goods in all interior markets for less than we can? A prominent reason for the marked decline in business is in the exorbitant terms demanded by the eight hour leagues. To build vessels on such terms would be to commit egregious folly, and our foreign commerce is done mainly in foreign ships, while our headstrong artizans are forced into other and less remunerative fields of employment. The great producers of the West are striving to obtain cheap transportation, but the working classes of the East persistently deny the boon by their unfortunate exactions and impolitic course. They must expect that capital will insist on protecting itself with quite as much pertinacity as they have exhibited. If not satisfied with a just recompense for work justly performed, capital will employ those who are. The evil has become so serious that the owner of an establishment is scarcely permitted to be its director. Having restricted his operations to a fixed number of hours per day, they now presume to direct how many hands and whom he shall employ, and if their dictates are disregarded, they threaten to compel obedience by force. Will not the laboring classes comprehend that they are standing in their own light? That they are killing the goose which layed the golden egg?

ARRIVAL OF THE *Ginga* BARK—THE SMALL POX.—The bark *Gaspard*, from Hongkong, arrived yesterday morning. During yesterday considerable excitement prevailed in the city on account of its becoming known that the bark had the small pox on board. The city authorities promptly adopted the precaution of requiring the vessel to be towed out in the stream. At the request of Mayor Goldsmith, Drs. Ghiselin and Chapman visited the vessel to ascertain the condition of things, and subsequently handed the following communication to Mr. Goldsmith:

PORTLAND, July 11, 1869.

Hon. B. Goldsmith, Mayor of the city of Portland:

SIR: At your request we visited and examined the ship *Onward*, which arrived this morning with two hundred and seventy-nine Chinese passengers, and have the honor to submit the following report:

She left Hongkong May 20th. During the voyage four cases of small pox occurred, one of which resulted fatally. The Chinamen, either from the influence of vaccination or a previous attack of the disease, have resisted the infection, as but one contracted it, in a mild form, a month since and recovered rapidly. It is evident that they have been well cared for, as they are cheerful and have the appearance of being in a vigorous state of health. At present, the Captain alone has the small pox, and the symptoms indicate an light attack.

Very respectfully your obedient servants,
J. T. GHISELIN, M. D.
J. A. CHAPMAN, M. D.

In view of the above favorable report, Mayor Goldsmith, with the concurrence of the Committee of Health and Police, addressed a letter to the Captain, requesting him to anchor in the middle of the stream half a mile below the city; giving permission to land her passengers this morning, opposite the place of anchorage; the vessel and passengers to remain below for ten days; the vessel to be thoroughly fumigated and cleaned, and all clothing and bedding of the crew which could possibly contain infection, to be burned either on the vessel or outside the city limits; and if after this, there should be no new cases of the disease, the vessel to be permitted to come to the dock and unload. To this letter the Captain replied in very courteous terms in substance that he would willingly comply with the above conditions. It will thus be seen, that there really exists no occasion for excitement or alarm.

A HANDSOME RECORD.—It is announced that in the first ten months after its organization, the "National Life Insurance Company of the United States of America" had issued not less than 5,305 policies, by which the public had insured to the amount of over fifteen millions. Such a success is unparalled in the history of life insurance, and must be strong influences which have contributed to this astonishing result. The fact that the Company is national in its character has been a strong recommendation. It was chartered by Congress with authority to transact business in any and every part of the country, and it has acted upon this authority by opening the best financiers, and most active and reliable business men throughout the States and in the Provinces of Canada, to act as general or sub-agents. The public having confidence in the honesty and sagacity of these agents, have given special attention to the character of the work which they set out, and have found that the National Life presents features certain to recommend themselves to popular favor. Its paid-up capital of one million dollars is a tangible fact, very assuring to those who have well grounded suspicions of any unsubstantial or "wild-cat" speculations. Its officers and directors are men who cannot afford to be associated with any dishonest or questionable scheme, and it offers life insurance upon some new and very profitable plans. And yet, notwithstanding all the many manifest advantages offered, it is a matter worth special note that in the first ten months of the first year this Company should have issued insurance to an amount nearly double that ever issued by any other company in the world during the entire first year of its existence, and exceeding by nearly $6,000,000 the amount insured by any company previous to 1863, during any full year of its operations. This Company has, by wide-spread system of advertising, invited investigation into its plans and purposes; how well it has borne the most exacting inquiry is best shown by the fact with which this paragraph began—the issuing of nearly 5,406 policies, covering over $15,000,000 insurance, in ten months' time.

The local agent of this Company appears by advertisement, in another column, and to that we refer our readers for further information concerning it.

REPORT OF HANCOCK STREET SCHOOL.—The following is the report and roll of honor of Harrison street school for term ending July 9th:

Grammar Department—J. W. Pratt, Principal; Miss D. E. Montgomery, Assistant: whole number enrolled, 84; number of girls, 28; boys, 56; average attendance, 69.

At the close of the term in this department diplomas of honor of the first grade were awarded to all those who attained a perfect scholarship, or 100 credits; second grade, 90 credits.

Names of pupils who received first grade—Minnie Wells, Eugenia Coombs, Salina Rickards, Alice Peterson, Annie Doble, Walter Mathews, C. B. Hopkins, Frank Hayden, John Carroll, Willie Hayden, Willie Richardson, Willie Jackson, Robert Smith, Willie Murray, Edward Lamb, Edward Madden.

Second Grade—Hyram Bennett, Edward Dwyer, Gustave Winters, Eddie Burrage, Bascom Bennett, Elgen Macdonald, Sophie Schmerr, Emma O'Brien, Alice Batchelder, Alice Robinson, Nettie Dudley, Emma Hendrie, Eddie O'Dea, John Fitzpatrick.

Primary Department—Mrs Julia Coombs, Principal, Miss Albina Batchelder, Assistant; whole number enrolled, 183; number of girls 85; boys, 98; average attendance, 110.

Roll of Honor—Henry Shirloin, Albert Thomas, Andrew Stearns, Robert Church, Emma Taylor, Virginia Whittle, Frank Giltner, Willie Winters, George Bodmer, Montie Fickle, Frank Richardson, Annie O'Brien, Charley McGlanghlin, Samuel Berry, Charley Lounsdale, Grace Delin, James Bulger, Fanny Bulger, Harry Batchelder, Albert Lawrence, Oscar Darr, Josie Darr, Katie Field, Josephine Sullivan, Willie Dello, Robie Coombs, May Rathburn, Sarah Richardson.

ODD FELO THEATER.—Mr. and Mrs. Bates gave us a very entertaining performance Saturday evening. The "Morning Call," full of wit repartee and sharp dialogue, was rendered with fine effect. It is thrust and parry from the opening sentence to the final mutual surrender of the two victors—for Sir Ardent and Mrs. Chillington are each vanquished—and its intellectual fencing was done by both Mr. and Mrs. Bates with such artistic skill as to lend the text a double piquancy. The "Conjugal Lesson" is an extremely laughable little comedy, with an excellent moral, requiring a style of acting as far removed from that of the first piece as the antipodes of Africa, yet it was as charmingly done as the other. In the absence of a full company, our people cannot do better than to patronize these drawing-room entertainments as they are given with all the scenic and stage effects required in a full cast music. We do not doubt that all who attended Saturday evening will be pleased if Mr. and Mrs. Bates shall very soon announce another similar performance.

THE IMMIGRANT AID MEETING.—The meeting at the Council Chamber, Saturday evening, to take preliminary steps toward organizing a system for encouraging and promoting immigration to this state was largely attended by our most influential and leading business men. Judge Upton called the meeting to order whereupon Mayor Goldsmith was chosen chairman, and Mr. C. P. Ferry Secretary. A committee of five was provided for, to report at the next meeting a plan for organization.

A committee of ten, consisting of Messrs. Goldsmith, A M. Loryea, Philip Wasserman, W. W. Chapman, W W Upton, M P. Deady, W S Ladd, S M. Smith, Lloyd Brooks and Charles E. Calef, were appointed to receive the Congressional Committee of Ways and Means, expected to arrive by the steamer *Oceanic*, and to tender to them the hospitalities of the city.

Speeches were made by Messrs Chapman, Loryea, Goldsmith, Upton, Dolph, Ankeny, Veatch and others, and a spirit of earnestness was manifested which gives assurance that something practical will be accomplished by the movement begun under such favorable auspices.

THE 4TH AT VICTORIA.—The *Colonist* of the 5th says: Yesterday, the 93d anniversary of American Independence, was observed by throwing to the breeze all the bunting in the city. American, British and Hawaiian ensigns waved side by side—evidences sufficient, if any were wanting, of the cosmopolitan character of our population, and of a sincere desire on the part of all classes to show respect to the occasion. To-day the event will be celebrated from one end of the continent to the other, and British Columbians will not be behind their brethren on the other side of the line in "demonstrating." In the leading editorial column, the *Colonist* commences an article on the subject, with the following rather Americanised declaration: "To day is appointed for the celebration of the independence of the United States, and we doubt whether any event in the history of the world is more worthy of being religiously observed."

SAN FRANCISCO MARKETS.—From San Francisco papers of the 8th, received by steamer last evening, we obtain the following quotations, not telegraphed:

Spring chickens, $4 50@5 00. Bran—with good demand and light stocks, readily brings $20 per ton. Middlings—feed, $24@26; fine, $27 50@29 00. Oregon potatoes, 25@26c. Oregon bacon, sides, 12½@13c; hams, 14@16c. Lard—in good demand, in tins, 16c. Wool—large arrivals, mostly placed in store; quotable at 17@21 for good to extra choice.

SOMETHING NEW.—Messrs. Jackson, Sanderson & Co. advertise a style of extra-plated spoons, knives and forks, etc., which is entirely new. The exposed parts, such as usually wear out first, have a coat of electro plating, three times the usual thickness, making them wear really more than three times as long as the old style plating. The porcelain-lined ice pitchers, baking dishes, pickle and preserve dishes, &c., are entirely new in this market. It will be worth while for housekeepers to call and see them.

CONTRACTS AWARDED.—The proposals for furnishing cement, lime, sand and rubble stone for the erection of the United States Custom House, were opened on Saturday by the Superintendent, in the presence of the Disbursing Agent and the Collector of Internal Revenue, and the contracts awarded to the following persons for cement, J. B Knapp; lime, Hurford & Hibbard; sand, Goudon & Bird; rubble stone, W. W. Nelson.

THE ADELINE ELWOOD.—In the list of vessels spoken, reported in the *San Francisco Commercial Herald* of July 2d, we find the *Adeline Elwood*, May 8th, in latitude 3 south, longitude 31 west. This point is off the most easterly land of Brazil. The *Elwood* should arrive here within the next three or four weeks.

U. S. DISTRICT COURT.—This Court will convene this morning, when a decision will be announced in the matter of the claims of Allen & Lewis and H. Failing to prove debts against the estate of J. J. Walton & Son.

TO OWNERS OF DOGS.—Mr. Saunders informs us that the ordinance relating to dogs, which has been inoperative for some time, will be hereafter enforced. Owners should look to it, and procure the required collars.

OREGON PATENTS.—Patents were issued June 2d to the following Oregon inventors: J. W. Lewis, Oregon City, gang plow; to the same, roller cutter for plows; Andrew Smith, Dayton, Hilipsograph.

LAUNCHED.—The steamer *Puwnie Troup* was launched at the Boneyard on Saturday and was towed up to her wharf by the *Currie*, where she will receive her new machinery.

WALLAMET UNIVERSITY.—The Board of Trustees of the Wallamet University, will hold the annual meeting at Salem, on the 21st inst. at half past one o'clock P. M.

PERSONAL.—Judge Orange Jacobs, lately appointed to the bench of Washington Territory, arrived from Jacksonville, last evening. He is on his way to Olympia.

THE NEXT STEAMER.—The *Mose Taylor* is announced as the next steamer from San Francisco to Portland. She will sail next Thursday at 4 o'clock P. M.

THE "CASCADE."—This steamer, after undergoing a thorough course of repairs and repainting, is again in her old line. She looks as gay as a bird.

PIG IRON.—On Saturday the bark *Almatia* received two hundred and twenty-five tons of pig iron from the works at Oswego.

REGATTA MEETING.—A meeting of the Regatta Club will be held this evening for the purpose of perfecting an organization.

OREGON.

The Christian Church at Eugene was dedicated last Sunday.

Flour is transported by sea to Yaquina Bay and sold for less money than the same brand can be furnished from Corvallis.

Persons from Eugene who have recently taken horses to California report that the horse market in that State is at present rather dull, being somewhat overstocked.

Says a Eugene paper: There seems to have been considerable demand for Bohemia stock during the week. One claim was sold for $900 in coin, and others for less sums.

We agree with the editor of the Eugene *Journal* that there ought to be a stringent law both in Oregon and California, inflicting heavy penalties upon any person convicted of firing the timber in the mountains. Such a law might not entirely prevent, but would certainly mitigate the evil.

The *Unionist* learns from the Dalles stage driver that A. N. Cochrane and a man named Fender were arrested on Thursday last, on a complaint charging them with the murder of Miss Boyce, who it will be remembered was found dead in that place about ten days since. Cochrane is the man with whom the girl was living and Fender was her stepfather.

The *Unionist* states that on Wednesday, the wife of Jim Wheeler, living near the mouth of Soap Creek in Polk county, was found dead in her room. From circumstances it is suspicioned that she died from poison, administered, perhaps by her own hands. On the same day old man Empey, known in this city, was found dead in a field. It is thought that over-exertion on the 4th of July was the cause of his death.

The Corvallis *Gazette* says: We learn from Dr. Graham that the proposition made by Bishop Morris to establish a female seminary at this place, on certain conditions, meets with most universal favor in our community. The Doctor thinks there will be no difficulty at all about our citizens donating the site. If so, it is the intention, we understand, to put up the building immediately.

From the Eugene *Journal*: From a gentleman just in from the Warm Spring Reservation, over the McKenzie route, we learn that the Indians under the control of Capt. Smith are greatly alarmed at the prospect of being placed under charge of military officers. They have had some experience with the soldiers—in the guard house and otherwise—but never could get along together. Whenever the soldiers were camped among them on the reservation they were continually getting into difficulty.

THE WEST.

A long section of snow sheds on the Central Pacific railroad was recently destroyed by fire.

The break in the Pacific railroad connection at Promontory still continues. Nearly a whole day is lost by the passenger at that point.

It has been suggested that the smoke issuing in such volumes from the north arises from a terrific bombardment of Victoria by George Francois Train.

San Francisco papers say it is the loafing white rabble of that city and not industrious laboring men who indict such shameful outrages on unoffending Chinamen.

The Poorman mine at Owyhee has completed a shaft to the depth of 400 feet. Levels are already started and preparations are being made for running out an unusual quantity of rich ore from the old "stand by." The Poorman, which has already produced his millions, is always failing, but never fails.

Seward's reception in San Francisco was a grand affair. The *Bulletin* says that with the exception of the demonstration made on the arrival of General Scott, there never was a reception of a national personage in that city which approached the present one in point of popular enthusiasm and rejoicing.

The Owyhee *Tidal Wave* says: A large lode of magnetic iron or lode stone exists in Cuyo District, which, by its attractions, draws upon it the lightnings of every thunder storm. The surface of the ledge lies in waves of solidified slag, blackened and glazed like the cinders of a blacksmith's forge, doubtless from the effects of lightning which for ages has made this spot its target.

Governor Seward and party, including Fred Seward and wife Abijah Fitch, of Auburn, New York, an old personal and political friend of the Governor, and Hon. Wm S Dodge, late Collector of the Port of Sitka, are to leave San Francisco to day (Monday) for Alaska on the steamer *Active*. On the way up the party will touch at Victoria. On the trip down the party will touch at Portland.

A KIND CRITICISM.—A Shakespearian criticism comes to us from Germany, the unexpected pertinence and justice of which reminds one of the farmer's criticism of the great painter's cattle picture—that the cattle in the *picture* were getting up fore feet first, while in *nature* cattle raise on their hind feet first. During the performance of "Hamlet," when the melancholy Prince soliloquized

"But that the dread of something after death,
The undiscovered country from whose bourne
No traveler returns."

a country fellow in the gallery exclaimed, "Stupid! didn't you see your father's spirit last night? Where do you think he came from?"

O F TRAIN *preaches* but does not always *practice*—for he patronized the Oregon Dispensary and used our medicines to cure his hands that caught those *large* Salmon. Since his lectures on DOCTORS and DRUG STORES, we have had an unprecedented run for our numerous remedies, toilet articles, etc., etc. It has been said that Mr Train was induced by us to deliver that lecture, but we assure our numerous patrons that we do not use such means to obtain patronage. We do the largest trade because our Druggists are the most competent and our medicines and goods are fresh, pure and cheap.

LORYEA & KALLENBERG,
73 First Street.

LADIES—Clarke, Henderson & Cook received, per steamer *Pacific*, a few more of those beautiful Organdie Lawns; also, white Marseilles and Piques.

EVERY DAY, at No. 107 Front street, one door above McCormick's, you can see KANE'S CONDENSED SOAP wash *without rubbing*.

THE DAY fixed to commence work on the East Side Railroad is July 1st. By that time the Company will have sufficient Railroad Iron on the way or in Portland to complete twenty miles of road. Workmen without employment should be patient for the Company will give employment to a thousand men, at good wages, and of course KOHN & FISHEL will continue to sell the very best clothing in that time at remarkably low figures.

THE ATTENTION OF PERSONS CONTEMPLATING insuring their lives, or increasing the amount of insurance they already have, is called to the special advantages offered by the NATIONAL LIFE INSURANCE COMPANY.

NO MONEY SENT OUT OF THE STATE.

ALL PREMIUMS RECEIVED INVESTED IN THE STATE.

THE ADVANTAGES OFFERED ARE:

It is a National Company, chartered by special Act of Congress, 1868.
It has a Paid-up Capital of $1,000,000.
It offers Low Rates of Premium.
It furnishes Larger Insurance than other Companies for the same money.
It is Definite and Certain in its Terms.
It is a Home Company in every locality.
Its Policies are Exempt from Attachment.
There are no Unnecessary Restrictions in the Policies.
Every Policy is Non-forfeitable.
Policies may be taken which Pay to the Insured their Full Amount and Return all the Premiums, so that the Insurance costs Only the Interest on the Annual Payments.
Policies may be taken that will Pay to the Insured, after a certain number of years, During Life, an Annual Income of One-Tenth the amount named in the Policy.
No Extra Rate is charged for Risks upon the Lives of Females.
Insures Not to Pay Dividends, but at so low a cost that dividends will be impossible.

Its Policies are Negotiable.

By the Charter of the Company, certificates of obligations will be issued, agreeing to pay its Policies at their values which, when accompanied by the Policy duly assigned or transferred, are negotiable, and may be used as collateral security, in making loans from the Company or from other parties.

The Hon. Jno. N Sandford, Insurance Commissioner of Massachusetts, in his Report for 1868, speaking of Dividends in Life Insurance Companies, says: "The sooner such guarantees cease to be made, and such expectations created, the sooner Life Insurance will come to rest on its true motive, and men insure their lives for security, and not for dividends. The best and most popular companies will then be those that promise only equity, and render all that they promise, and furnish the best security, with the most upright and judicious management."

"By the Stock plan, the full cash effect of the Premium is immediately secured to the Insured, the Company taking ALL the risk. By the Mutual plan, the full value in Insurance of the Premium paid, is not secured to the Policy-holder, who takes a portion of the risk himself."

MONDAY MORNING, JULY 12, 1869.

The Case Partly Yielded.

On Sunday of last week and again on ednesday, the *Herald* had articles in ad-cacy of free trade. In reply to those ar-cles we showed that without a tariff it would impossible to obtain an adequate revenue r the Government. The *Herald* now gives this point and favors "a reasonable *ad lorem* tariff." This is the course which is discussion generally takes. There is uch talk about free trade, but when the ad-ocates of the theory are confronted with in-rmountable facts and shown what the con-quences of their free trade would be, they ve up their first position and pronounce for *revenue* tariff, as contradistinguished from a riff for protective purposes. We have it ow from the *Herald* that free trade will not . With a "reasonable *ad valorem* tariff," ys that paper, "the revenue derived is con-derable, and the benefits accruing to poor en by reason of the cheapness produced by mpetition are immense." How, let us in-uire, can any benefits accrue to poor men nder a tariff which raises the price of goods, and this is the result to a greater or less rtent of every tariff,—unless the element of rotection to home labor comes in as a con-sequence of the tariff which is imposed? he sole benefit which any tariff can be to he laborers of this country consists in the rotection thereby afforded to American in-ustry. To compensate for dearer goods we ave higher wages and the development of ome industries. The *Herald* wants a reve-ue tariff That is just what we have at esent. Revenue is the prime object of the ow existing tariff; and one of the conse-uences of this tariff is the protection afford-d to American industry. Our tariffs are, in eneral, higher than they were ten years ago. hey were increased that the Government ight obtain more revenue. Therefore the evenue tariff is a revenue, as well as a pro-ective tariff.

As the *Herald* advances with its argument becomes still more confused and falls into till more serious blunders. It says that "a igh protective tariff will completely stop the old from customs." That paper, we be-ieve, calls the tariff now existing "a high rotective tariff." What are its results as compared with the lower tariffs of former i-es? In 1860 the amount of gold received rom customs was $60,000,000. The tariff as increased during the war and the present 'high protective tariff" was adopted. The old revenue derived from customs now amounts to $180,000,000 a year. Does this ook as if a "high protective tariff" had completely stopped the supply of gold from ---? The lesson to be derived from this g is that in dealing with a question of olitical economy it is not safe for a writer to ely entirely on his imaginations for his facts.

Again, the *Herald* tells us that "protection ha- two inevitable results; first, high-ake- goods; second, lower wages." That tariff tha- the price of goods more or ess is admitted; but that it cheapens labor s denied. One of the good results of a ariff is that it keeps up the wages of our workingmen. Wages in this country, as every one knows, are, at an average, double hose in England, which is boasted of as a free trade country. Here is another lesson n the bad habit of relying on the imagina-ion for facts.

On the subject of iron, the *Herald* remarks hat "our iron-makers have only to be con-ent with a small profit to enable them to ompete with England, tariff or no tariff," nd produces some figures to bear out this ssertion. Now no amount of figuring, based n gratuitous assumptions, will successfully stand gainst practical facts. We have repeatedly hown that our efforts to manufacture iron ave not been successful; for though the duty n iron is nine dollars per ton, foreign iron n Oregon pig in our own markets. Nor s it true that our iron-makers "are not con-ent with a small profit." Or is it supposed hat the works at Oswego, built at so great utlay, were one of the proprietors could make hem a small profit? Would they not keep heir blast going if they could make any profit however small, rather than suffer their cap-tal to be idle, locked up entirely out of their ands? We think they would. The simple act in that with wages at present rates it has been found impossible as yet to produce iron here at a profit which will pay for the capital nvested. Without the duty on iron it would e madness to attempt to produce the native article at all.

Dull Again.

In our columns to-day will be found a com-unication from Canyon City relative to the Dalles and Boise Military Road. The com-unication seems to us to contain unnece-ary personalities; but its main idea, viz: hat Congress never roads a grant of land for a road is ably constructed, and that the law equires the land to be disposed of and the roceeds used in building the road, is un-oubtedly correct. We have before us an of-icial copy of the act, which provides,—

That the lands hereby granted shall be exclu-sively applied to the construction of said road and to no other purpose; and shall be disposed of only as the work progresses. * * * The lands hereby granted to the said State shall be dis-posed of in the following manner, that is to say: when the Governor of said State shall certify to the Secretary of the Interior that ten con-secutive miles of the said road are completed, then a quantity of the land hereby granted, not to exceed thirty sections, may be sold, and so on from time to time until the said road shall be completed. * * *

Our correspondent evidently supposes that the Company will receive the whole body of these lands, and the Company may probably think so too. But a close examination of the act will show that the Company will receive no lands at all, but that sufficient lands are to be sold to pay for building the road and no more, and that the proceeds of the sale are to go to the Company to reimburse them for the outlay. According to the natural construc-tion of the act no land will pass to the Com-pany; but a sufficient amount of land is to be sold, probably under the direction of the Sec-retary of the Interior, as the State seems to have made no provision for its sale, to con-struct the road or to compensate the Com-pany for the actual expense incur-red. The Company, we hear, talk of selling lands to settlers. We suggest that it would be a good idea for them to ascertain first whether they have any lands to sell. At all events we are satisfied, after examining the act with some attention, that they are not going to receive anything more than compen-sation for the money actually paid out in building the road—unless some unfair or un-lawful means are resorted to. The lands for building the road belong to the State, and can be disposed of by the State only in strict Company, we think, will not receive a title to the whole body of those lands or to any part of them. They will simply get the money derived from the sale of enough of the lands to build the road.

In General.

The arrival of the Committee on Ways and Means betokens good results to our State. We hope every courtesy will be extended to them, and every possible effort made to put them in possession of a proper knowledge of the country, its wants and resources.

The Democratic call in the South for Chi-nese immigrants seems slightly inconsistent with the position taken by that party in Ore-gon and California. Southern Democrats are smashing the hobby which has been ridden so hard by demagogues in the Pacific States.

It has been observed that wherever there is to be a close contest the Democracy nomi-nates a renegade Republican or war man for office, but where the Confederate element is supreme no man with the least suspicion of Unionism is thought of. It is a pretty good rule.

The *Herald* has an encomiastic article on Vic. Trevitt. The brief remarks we made the other morning were not addressed to those who admire the private and public virtues (!) of the person mentioned. Doubtless there is a class who would call him a "good fellow;" but their opinion is not the opinion of those who think that "lewd fellows of the baser sort" deserve little respect or countenance.

Some days ago when we wrote an article on the Dalles Military Road we were under the impression that the whole amount of the lands allowed for the construction of the road were to go into the hands of the Com-pany. We had not then closely examined the act of Congress on the subject. More care-ful investigation has convinced us of the correctness of the view set forth elsewhere in to-day's paper, viz: That the Company will receive no land, but only the proceeds of the sale of enough of land to build the road.

At the risk of repeating what we have here-tofore said, we will remark again that as a means of making Oregon known at the East no other way could be so effective as to se-cure from time to time the publication of articles on our State in widely circulated Eastern journals. Brief articles might be sent occasionally to leading papers in the great cities; and if the practice were steadily kept up there would be results that would tell with great effect. Money should be used if necessary to procure the publication of such articles as may be deemed desirable. These matters, we hope, will be considered duly by those conducting the movement which was organized here on Saturday eve-ning.

S. S. Cox is a Democratic member of Con-gress from the Five Points or some kindred locality in New York City. Repudiated by a former constituency in Ohio, he carpet-bag-ged to New York and found a more congenial climate. He is now traveling in Spain as a correspondent of the N. Y. *World*. He was recently serenaded in Spain by a club of Spanish Republicans, simply because he was an American, a citizen of the great Republic. But regardless as well of every feeling of de-cent consideration for his visitors, as for the most rudimentary principles of patriotism and self-respect, he made a long and sopho-moric speech in which he said in substance that while a Republic existed in Spain, it no longer existed in America. Does it not really seem as if the last spark of American feeling had died out of the Copperhead heart?

Trade Union Proscription.

We find in the New York *Evening Post* an article in which are expressed such clear and sensible views in regard to the recent short-sighted action of various Trade Unions in different parts of the country that we make no apology for inserting it:

The Bricklayers' Union of Washington City have expelled six members because they worked where black men were also working as brick-layers. The Printers' Union has been for months boggling over the admission of a son of Frederick Douglass. The other day, we see it reported, sixty masons struck in Newark because their em-ployer, who had two apprentices, took a third.

It is said that nearly all the trades in this country now have "unions," and we suppose a unionist sincerely believes that united action is advantageous to artizans and workingmen. So it might be, if the action were wise; but we can assure workingmen in America that their unions will soon fall into general contempt if they go on with such absurd and wicked acts as those we have mentioned above.

A man's face is black—therefore, so far as a "union" can do it, they devote him to starvation. Young Douglass is a printer—the Printers' Union, so far as it has power, forbids him to work at that trade. What then shall he do? If he should turn bricklayer, the Bricklayers' Union would again step in and snatch the bread from his mouth. Why do not these sapient unionists meet in grand convention somewhere, and decree at once that if a man's face is black he shall work at no honest trade; why do they not declare in a sentence that black men shall live only by robbery?

Then they might add a second rule, that no-body who does not know a trade shall be permitted to learn it, and then they will have the monopoly in their own few hands. And by the time everything is thus comfortably arranged for the Unionists, they will discover that the public is on a "strike" against their foolish tyranny, and will refuse to use the labor of any one who is connected with a Union. To that complexion matters are com-ing fast. It is notorious that to employ the mem-bers of the Trades Union is, in many cases, to get less work done, in poorer style, pay more for it, and suffer more vexatious tyrannies than under any other system that has yet been contrived in this country; and it is equally notorious that in many cases the Trades Unions are harbors for lazy and incompetent workmen, who there find shelter and support at the expense of skillful and honest men.

Hon. Ben. Wade as an Inspector

We look with some anxiety for the report which the Hon. Ben. Wade is likely soon to make on the condition of the Pacific Railroad He has just passed over the whole line on a tour of observation and inspection, and we should judge, has made pretty good use of his eyes and ears on the trip A keen corres-pondent of the Chicago *Tribune*, who was with the old war-horse on his journey, thus de-scribes the latter

Hon. Ben. Wade, accompanied by a large party, including his wife, Senator Roscoe Conk ling and wife, has gone up the road. Mr. Wade went through quietly, but it leaked out he was coming, and quite a crowd collected at the depot to see the "old war horse." Diligent search was made for him in the cars, but he was not there. He was at last found attentively examining the engine in front of the train and conversing with the engineer as to the management of "such crit ters." When the staring crowd gathered around him he bluffly said, "going to California, and will be back soon. Ain't some of you fellows going over?" A number of gentlemen introduced themselves, and Mr. Wade asked several to "jump aboard and take a ride," but nobody went, all being too busy in this new country trying to make a fortune to take a pleasure trip so extended. When the whistle blew, Mr. Wade jumped on the engine and departed. He is making an inspec-tion of the Pacific road, and evidently is inspect-ing it. When the train is in motion, Mr. Wade sits at the door of the rear car and watches the track as if he had lost something somethi g val-uable and expected every moment to discover it. Sixty miles above here, night coming on, Mr. Wade ordered the train to run on a siding and leave his car until morning, as he was determined to go over the road in daylight. As soon as he could see, a special engine was sent up and at-tached to his car, and the old fellow, having properly adjusted his spectacles, set sail westward.

DISPATCHES TO THE OREGONIAN

DATES TO JULY 10.

LAST NIGHT'S DISPATCHES

New York News.

CHICAGO, July 10.—A *Tribune* special says Doolittle and Van Winkle, brothers of the Sena-tors, who were appointed weight masters in the Custom House, by Collector Smythe, were re-moved by Grinnell and arrested on charge of fraud, covering many thousand dollars Warrants are also out for the arrest of Smalley and Carr, weight masters.

The impression prevails that Sanford, defaulting cashier of the Central Bank, committed suicide.

Rumors are afloat of a new express combination, but nothing definite is known.

NEW YORK, June 10.—The German singing so-cieties, who went to Baltimore to-day, marched in three divisions, each preceded by a band, to the Jersey depot, passing in review before Mayor Hall, at City Hall Park.

Another row of buildings in Jersey City fell yesterday, being poorly built.

A policeman was sunstruck in the Battery to-day and will probably die. The deaths for the week are six hundred and forty three, of which three were from cholera

Erie cabs made their first appearance in the streets to-day.

It is reported that one of the robbers of the Ocean Bank has been arrested.

It is stated that indictments of twenty five brokers for exacting usurious interest on loans are out, and they probably will be arrested Mon-day. The evidence before the Grand Jury is said to be quite startling.

A train on the Erie railroad collided with a freight train last night and six freight cars with contents were smashed and nine burned. No lives lost.

Representatives of the different New York and Brooklyn Boat Clubs, with a large number of other friends, escorted the Harvard crew to the steamer, *City of Paris*, and gave repeated cheers as the vessel left the pier for Europe.

Jas. R. Doolittle, charged with frauds in the Weighmaster's department of the Custom House, was honorably discharged to-day, the committee declaring no case had been made out.

Six iron moulders, who struck against the Brooklyn Union Iron Works, were put under bonds to-day by Judge Voorhies, on charge of conspiracy.

Washington News.

WASHINGTON, July 9.—According to what was understood to have taken place in the Cabinet to-day, the Mississippi election most probably will not occur until the fourth Thursday in November after the elections in Pennsylvania and Ohio. Nothing definite has transpired regarding the Texas election, though the day will be equally remote.

WASHINGTON, June 10.—Wm. Claflin, Chair-man of the National Republican Executive Com-mittee, directed the recognition of the Executive Committee of Texas, chosen by the convention which nominated Gen. Davis.

The Internal Revenue Commissioner, with the approval of the Secretary of the Treasury, has ordered collectors to sell all spirits remaining in bonded warehouses July 21st.

The President attends a singing match for a prize on Monday evening, at Maryland Institute, Baltimore, accompanied by the Cabinet, General Sherman and others.

Political Matters.

The *Tribune's* special says the President will soon issue a proclamation for the elections in Mis-sissippi and Texas on the fourth Thursday in November. The constitution of Texas will be submitted as a whole, it not being thought ad-visable to allow a separate vote on any provision. In Mississippi a separate vote will be taken on the disfranchisement clause. The matter occupied nearly the whole of yesterday in the Cabinet ses-sion.

CONCORD, July 9.—The Legislature adjourned to-day, having passed 181 acts and resolutions.

JACKSON, MISS., July 9.—The new organ of the National Republican party appeared to-day. It hoists the name of Judge Dent for Governor. The salutatory says that it will be purely national in its aims, yield hearty support to the Administra-tion of President Grant, urge a strict adherence to the reconstruction laws and advocate universal suffrage and universal amnesty upon the basis of civil and political equality to all. Judge Dent's nomination on the Grant platform meets with a warm approval.

WASHINGTON, July 9.—President Grant has in-formed prominent Mississippians that it was his desire that entire fairness and impartiality be observed in making the arrangements for the elections in Mississippi. The Commanding Gen-eral will be instructed accordingly.

Massachusetts Liquor Law.

BOSTON, July 9.—The lager beer dealers of this city have formed a permanent organization for vigorous political action to repeal liquor laws The Germans throughout the State are invited to form local societies.

WASHINGTON, July 9.—Courtland C. Clemmons has been appointed Surveyor General of Utah.

Heavy Storm at Utica.

UTICA, July 10.—The heaviest rain storm for many years passed over this city at noon yester-day. Sauquoit creek is at a higher point than for fifty years before. Travel on the Utica and Che-nango Valley railroad and the Susquehanna Val-ley railroad is suspended—bridges and dams de-stroyed. The premises of the Utica Cotton Mill Company at New Hartford, are damaged to the extent of $18,000. Two dwellings and three barns are gone. Six feet of water stood on the first floor of the factory, doing great damage to machinery.

Eliza Haycraft, a well known cyprian, died yesterday, of apoplexy. She left an estate val-ued at over $300,000.

Tremendous Fire in Colorado.

CHICAGO, July 10.—A special from Denver says a great fire is raging in the mountains around Georgetown, Colorado, and is spreading. There are fears that it will destroy an immense amount of timber. The mountains appear completely en-veloped in smoke.

Tennessee Politics.

The *Tribune's* Nashville special says it is ad-mitted on all hands that the decision of the Su preme Court affirming the power of the Governor to remove Registrars at his pleasure secures the election of Senter.

Deepest Well in the World.

ST. LOUIS, July 10.—The artesian well at the insane asylum, sunk 4,000 feet, is now to be abandoned. The last 1,000 feet cost $500 per foot. It is now proposed to raise a private sub-scription and proceed with the boring.

Great Flood in Texas.

NEW ORLEANS, July 10.—Further telegrams confirm accounts of great floods in Colorado Val-ley, Texas. The water is ten feet deep in the Court House square at Lagrange. It is estimated that twenty-five houses have been seen passing down the stream and the river is still rising. Staging has been stopped for four days. The town of Columbia is entirely drowned out. The water in the Brazos river is also very high and still rising four inches an hour.

Boston Dispatch.

BOSTON, July 10.—The frigate *Sabine* sailed to day for Portsmouth, England, with the gradua ting midshipmen aboard.

Jas. A. Broadhead has been appointed Liquor Commissioner, under the prohibitory law, to pur chase and sell liquor to the local agents.

PORTLAND, OREGON, July 1, 1869.

MR. S. D. SMITH takes this method of notifying his friends and the Traveling Public that he has again taken the WESTERN HOTEL, associating with him MAJ. COOK, and will in future endeavor to keep it in First Class style It is their intention to commence at once Repairing, Refitting and newly Furnishing the House throughout, making it second to none in the State. Give us a call and satisfy yourselves that what we say is true.

S. D. SMITH & CO.

WM. R. SEWALL and J. B. SPRENGER

Take this method of notifying their friends, the travel-ing public, that they have disposed of their interest in the Western Hotel, and hereafter will continue to man-age the COSMOPOLITAN, which in the future as in the past, will always maintain its reputation as the BEST and only FIRST CLASS Hotel in the city.

SEWALL & SPRENGER, Proprietors.

Portland, July 1, 1869. dtf

GEO. B. COOK

Would notify his friends and the traveling public, that he has disposed of his interest in the Cosmopolitan Hotel and proposes, with Mr. S. D. SMITH, to keep the WESTERN HOTEL in better order, and set a better Ta-ble, than is or ever has been in the Hotel he was for-merly connected with. GEO. B. COOK.

☞ No disagreeable smell from the river at the West-ern Hotel.

NOTICE.

WE TAKE PLEASURE IN CALLING the attention of dealers to a valua-ble Patented Improvement in Electro-Plat-ing Spoons and Forks, by which those parts most exposed to wear receive an

EXTRA COAT OF SILVER!

THREE TIMES THE USUAL THICKNESS,

(viz: on the back of the handle, heel of the bowl and points of bowls of spoons—back of the handle and breast and points of tines of forks, as illustrated in cut.)

This mode of Electro-Plating greatly su-persedes the old way of plating. The great advantage will be readily seen, as spoons and forks always wear through on these ex-posed points, while the plate is yet good on other parts of the article. This new process will add THREE TIMES TO THE DURA-BILITY of goods so plated.

Knives, forks and spoons stamped "1847 ROGERS BROTHERS A1 XTRA," are Electro Plated by the new Patented Process.

We have now been before the public since 1852, manufacturing ELECTRO-PLATED GOODS, which have stood the most severe tests of wear in hotels, steamers and private families, and have given universal satisfac-tion, supplying, as it does, all of the advan-tages of silver in durability and beauty. We wish to call particular attention to the hardness and firmness of our White Metal, which exceeds anything of the kind made in this country. All goods plated on this metal bear our trade mark, and the plating is warranted THREE TIMES THE USUAL THICKNESS.

HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER
HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.
Having examined the New Patent Shaft Coupling, invented by H. R. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used
It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.
It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

DISPATCHES TO THE OREGONIAN

DATES TO JULY 10.

Washington News

NEW YORK, July 10.—The *Herald* says that Col. Warren, one of the Fenian prisoners recently released from an English jail, had an interview with President Grant, and obtained a letter from him to Secretary Fish, directing an investigation of all cases of imprisonment specified by Warren

CHICAGO, July 10.—The *Times'* Washington special says prominent Mississippians declare that the State will give 40,000 conservative majority.

It is said that if General Hancock receives the nomination for Governor of Pennsylvania, he will immediately resign his position in the army and accept.

John Rose, the Canadian Minister of Finance, is here to consult with the Secretary of State in regard to the new reciprocity treaty order

WASHINGTON, July 9.—The Supreme Court of the District of Columbia has granted the application of McGarrahan for a mandamus, to compel the Secretary of the Interior to issue a patent to him for the Panoche Grande tract. The writ of mandamus was served on Secretary Cox to day. The decree provides that McGarrahan shall pay a dollar and a quarter per acre; the entire amount being $322,000. The New Idria mining claim is embraced within the tract

The *Tribune's* Washington special says the Indian Peace Commissioners start west on a tour of inspection in a few days. The Quaker Societies are all sending out gentlemen at their own expense to inspect the work of their agents.

New York News.

NEW YORK, July 8.—At the army and navy re-union it was decided to hold a meeting at Boston next year, August 5th, the anniversary of the battle of Mobile Admiral Farragut was elected President and Banks, Butler, Sheridan, Sherman, and several other distinguished Generals Vice Presidents.

At a dinner at Long Branch to-night, General Frank Blair being called out, spoke in behalf of Stonewall Jackson and the Southerners, during which he was loudly hissed. Admiral Farragut called him to order. Bad feelings prevail against Blair.

A *Tribune's* special says the Commissioner of Emigration will bring a suit against the *City of Paris* and other ships, for over crowding.

The Cubans are holding a reception and impromptu banquet in honor of the release of Gen. Gaicuria.

The anticipated knowledge of the purchase of bonds by the Treasurer has caused much talk to-day. A protest against such leaks will be sent to Secretary Boutwell, with the names of parties who had the news in advance.

Tennessee Politics.

NASHVILLE, July 8.—Gov. Senter lately removed the Registrar of Knox county and appointed G. V. Weaver in his place. The Chancellor has enjoined Weaver from serving. The Supreme Court has reversed the decision of the Chancery Court at Memphis, enjoining the recently appointed Registrar of that city from exercising the functions of his office. This gives Gov Senter the power to remove any Registrar.

Kansas News.

LEAVENWORTH, July 9.—Reports of the damages by floods in the Republican, Saline and Solomon valleys, in Western Kansas, were greatly exaggerated. The corn crop is not injured at all, and other crops not materially. Very few lives were lost.

TOPEKA, Kan., July 9.—In the case of L. Nicholas against the Kansas Pacific Railroad, for damages sustained last summer by the train running off the track, to day a verdict was returned for plaintiff for $22,000.

Miscellaneous.

SPRINGFIELD, July 9.—At the Amherst College the decree of D. D. was conferred on Rev. Edwin Bliss, Constantinople, and Rev. E. Goodwin of Chicago.

NEW HAVEN, July 9.—The monument to Fitz Green Halleck, at Guilford, was decorated yesterday with appropriate ceremonies. Oliver Wendell Holmes delivered poem written for the occasion.

CINCINNATI, July 9.—Three hundred and twenty barrels of sugar were seized to day by the collector of the port, for false invoices made at New Orleans.

Macoupin county, Illinois, was visited last evening by a terrific thunderstorm, doing great damage to the growing crops and to the wheat already harvested, also killing many sheep, poultry, etc. The Central Railroad track was very badly damaged.

Cuban Affairs.

HAVANA, July 9.—General Valmazeda has captured the rebel out-trenched camp at Margo, containing a powder mill and a quantity of war material.

DeRodas has issued a proclamation closing the ports of the eastern end of the Island.

Armed vessels are engaged in transporting the filibusters, who have been declared pirates.

There has been some fighting near Santiago. The result is kept secret.

BY ATLANTIC CABLE

LONDON, July 7.—The *Times* has an article on the Irish Church bill, and says the bill must become a law this session. Parliament must destroy Protestant supremacy and establish religious equality in Ireland, but not attempt to set up a multiplicity of establishments. If ecclesiastical property in Ireland is to be put on a permanent footing, we must recognize these facts and apply so much surplus as may may be necessary to supply home needs for ministers.

LONDON, July 8.—Lord Carrington was up before the police court to-day upon charges of provoking a Mr Murray to fight a duel. The trouble between these gentlemen arose from certain articles said to have been written by Murray for the *Examiner*. Lord Carrington was bound over to keep the peace, and held for bail on a second commitment. After these proceedings a disgraceful and remarkable scene occurred in the court room. The partisans of Murray, who were present in great force, attempted to seize a box of papers which had been stolen. In the melee which ensued, blows were freely exchanged and the magistrate's table overturned. Twelve policemen were called in and order restored

This morning's *Star* says the British people had a right to indulge the peers without depriving them of the luxury of being just. Hardly one of the amendments agreed upon by the House of Lords, can be tolerated by the country

BREST, July 7.—Up to Wednesday noon the *Great Eastern* had run 1,632 knots of cable. The heavy sea was going down and the signals were good.

MADRID, July 7.—There are fresh complications in regard to the Ministry and it is likely the whole Cabinet will resign.

LONDON, July 9.—The *Times* to-day observes that the spirit in which the House of Commons lately discussed the trades union bill speaks volumes for an exact, impartial and exhaustive inquiry. The increased attention given to the subject is not the effect of the pressure of the union leaders on legislation, but is due to a greater knowledge and wider experience of the members Although the bill is not likely to pass, the provisions it contains will form the basis for Government measures, to be introduced at the next session, which will repeal all laws making combination illegal, relieves all workmen from special penalties for trades union officers, and bring their funds within the provisions of the friendly societies act. In conclusion, it says that trade unions will continue to exist whether protected by Parliament or not, and that true statesmanship will seek neither to augment or reduce their influence, but accepting them as a fact, give them free scope for legitimate development

The Birmingham Chamber of Commerce have adopted a petition against the trades union bill. The petition takes the ground that the provisions of the bill tend to remove the protection against intimidation hitherto possessed by masters.

The expedition with the Bermoda floating dock touched at Porto Santo, and made the Island on the 4th of June, and then proceeded in good condition.

Gov. W. D Musgrover, of New Foundland, has been appointed to succeed Seymour as Governor of British Columbia.

Senor Rances has been appointed Minister from Spain to Great Britain.

LONDON, July 8.—The *News* to day, in an article on the international yacht race, says there are no yachts, not counting schooners, excepting the *Cambridge*, which are worthy to try their metal with the *Dauntless*, or any American antagonist, whether in the Channel or across the Atlantic says nice questions of admeasurment should not impose any serious difficulty, and suggests that the English scale be accepted in the English and the American scale in the American waters

PARIS, July 8.—The *Pays* to day says the Emperor has written a letter from which it quotes the following declaration in regard to the Corps Legislatif: On the 19th of June I committed a great fault by accepting with the majority I have cause to regard with regret my sentiments toward it. All my efforts should tend to regain its confidence The *Pays* does not give the address or date of the letter.

LONDON, July 9.—The House of Lords has rejected the bill creating life peerages by a vote of 77 to 106

The Bankruptcy bill was read a second time in the commons

Gladstone again requested the postponement of Sir Henry Bulwer's motion in regard to the Alabama claims, which amounts to the indefinite postponement of the question for this year. He said the Government thought it would best promote the interests involved in the great question by asking the House to refrain from discussing the question under negotiation, and although the negotiations on the subject were suspended for the present, neither government considered them definitely dropped. He pointed out that the question had not been discussed in accordance with the American Congress. The United States desires that an interval should occur on account of the state of public opinion in America, before negotiations are renewed. Under these circumstances the Government was anxious that nothing should occur to impede resumption.

Sir Henry Bulwer replied that he felt it to be his duty to accede to Mr. Gladstone's request, but he did so with great reluctance. He thought the discussion would do no harm. Seeing the policy of the Government, he did not attach much importance to Sumner, but felt the importence of the fact that exagerated propositions might be brought forward at a time when it would be equally dishonorable to grant, and disasterous to refuse them. In conclusion he threw the whole responsibility on the Government.

NEW YORK, July 9.—The *Herald's* London special says the action of the House of Lords on the Irish Church Bill causes intense excitement. Gladstone and Bright are in daily receipt of letters from persons favoring the Reform League agitation. They express the belief that the Lords will consent to compromise on the basis of postponement of the disestablishment bill till January, 1872, by paying a half million pounds in a lump, in lieu of private donations and by computing life interests at fourteen years.

A letter has been circulated privately among known Progressionists asking, in view of the failure of the Irish Church Bill through the opposition of the House of Lords, to the Government, Commons and the country, whether they will permit the use of their names to a public call for a mass meeting in event of the defeat of the Church Bill, to consider the best constitutional mode of getting rid of this obstruction to legislation based on the expressed will of the people.

PARIS, July 9.—In the Corps Legislatif in reply to some remarks of Jules Favre, Rouher said the Government and Chambers would always agree in opposition to revolution.

The political commotion in France continues. The Emperor has decided to give way to the system of government. He meets great difficulties in the effort to complete the new combinations, but the grand event is expected within a week. A new ministry will emerge from the Centre Gauce party which occupies a position between the Radical minority and the adherents of the Emperor. The Centre Gauce are for the empire, but insist on responsible ministers and a parliamentary government—the same as that of England.

MADRID, July 9.—In the Cortes to-day Senor Ascelo moved a vote of censure against Hewera, late minister of justice. Prim supported and Admiral Topete opposed the motion being made as it was a credit question. The motion was rejected by 142 to 94

The Republicans approve the refusal of the members of their party to join the ministry. They declare they can await the triumph of the Republican principles and policy.

ST. PETERSBURG, July 9.—The Czar has determined to revive the University of Warsaw which was replaced in 1862 by colleges.

NEVADA.

CARSON CITY, July 9.—The Coroner's jury, in the case of Mrs. Mulford, who was found with her throat cut, on Tuesday last, on Clear creek, to day brought in a verdict of death by the hands of a person or persons unknown to the jury. She had renounced Mormonism, and there is a general feeling by the community that it was the work of the destroying angels. It was a most unprovoked and cold-blooded murder. There is no trace of the murderers She left five small children, but had her life insured in the sum of $5,000 in their favor

ELKO July 9.—The wires of the Western Union Telegraph Company, now constructing from Reno across the continent on the mail road, were completed to this place, yesterday, amidst great rejoicing, firing cannon, etc

The Telegraph Company has made a general reduction of tariffs from this place, the present rate to White Pine mines being reduced from $2 50 to $1 and to San Francisco from $3 to $2.

A meeting of the citizens was called last night to take into consideration the building of a wagon road from this place to Boise and Oregon, passing through the celebrated mining districts of Coape and Bull Run. Owing to some misunderstanding the attendance was small and the meeting adjourned to this evening, when action will be taken and work commenced at once on the road.

ELKO, July 10.—The new mining district continues to create considerable excitement among miners. The leads are clearly defined, and are similar to that of White Pine district. One ton crushed at the Washoe mill, and worked by dry process, turned out over $600 to the ton Col Drew and quite a party left for that district, being all supplied with tools and provisions, for the purpose of developing their discoveries. A meeting was held to devise means to construct a road to the place. The estimated cost of the road is $2,000, all to be raised by subscription, the owners giving parties subscribing, stock in the road No difficulty is apprehended in being able to raise the amount.

VIRGINIA, July 10.—It was found necessary to again close the avenues to the 700 foot level in the Yellow Jacket mine to day, the gas being so abundant that the workmen could not work in the mine

It is believed that fire is still present in the Crown Point mine, and in quite extensive quantities.

The shaft of the Savage mine will not be closed for the next month 45,000 tons of ore have been taken out of this mine in the last twelve months and it is estimated that there are 5,000 tons now in sight Although the expenses now exceed the receipts, the future of this mine is considered brilliant

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, July 9.—A terrible stabbing affray occurred at 10 o'clock last night on the corner of Jackson and Dupont streets, between Chinamen, by which one of them, Ah Fam, was fearfully cut. He had been at the Globe Hotel and in coming out was set upon by a party of Chinese who lay in wait for him They plunged their long knives into him struck him with clubs and were about dropping him when the police interfered and succeeded in arresting two of the assailants, Ah Lee and Ah Lum the others escaping. The President of the See Yup Company was on hand almost immediately with a bail bonds, and demanded the release of the prisoners which was refused The affair appears to have been premeditated, and upon investigation, will probably bring to light some disagreeable facts connected with the trust scheme of some of the Chinese companies here Ah Fam will probably die.

Alfred Barstow, of this city, recently appointed special posta. agent of the 14th district, arrived here from Washington last night, and today assumed the duties of the office, in the place of Ben. C. Freeman, resigned.

Hon. Wm. H Seward is indisposed to day, from pains in one of his arms, which has been twice broken.

The Tide Land Association was organized today with A. C. Beachy as President Lloyd Tevis Vice President, G. D Roberts, Treasurer, and Wm. Dooley, Secretary Arrangements were made to proceed at once with the reclamation of lands, commencing with Michael Island.

Commodore C. J. Harrison, formerly Mayor of this city, arrived from the East last night, after an absence of ten years.

Sub Treasurer Felton yesterday received a telegram from the Secretary of the Treasury authorizing him to increase the bullion fund at the Mint by adding $100,000, to bridge over any difficulty that may arise from the closing of that institution for the change of management.

The *Golden City* sailed for Panama at noon to day with 132 passengers and $319,000 in treasure.

Shipping

Sailed—July 8th, ship *Ludymar*, Port Townsend; bark *Dahlia*, Vancouver's Island via Victoria; bark *Leonore*, Port Blakely, schooner *Enterprise*, Umpqua.

Wheat in New York, $1 65@1 75.

Liverpool, wheat 10s 8d

Private New York advices of July 2d remark that western spring wheat was again assuming an upward tendency, having nearly recovered from the decline of the previous week. The cause of the advance is said to be bad weather in the northwest, much wheat having been beaten down, in connection with an improved tone to Liverpool. California wheat was quoted at $1 72@$1 75, with sales on the 2d inst. of 2,000 bushels within the range The export movement was reviving, facilitated by a slight drop in freights.

Money was working a trifle easier, though still tight.

The Farmer's and Mechanic's Bank of Savings have declared a dividend of 10 per cent. per annum, free of Federal tax.

The Board of Underwriters have adopted a new schedule, reducing the rates of insurance on dwellings from 20 to 30 per cent.

Wheat—740 sks old, $1 55. The supply of new is quite limited and market firm at $1 60@$1 62½ per 100 lbs.

Oats—Further sales of 600 sks California coast, $1 50, quotable at $1 35@1 65; Oregon, at $1 60@1 70 per 100 lbs.

A large force of men are now employed on the Western Pacific Railroad bridge across the Mokelumne river. It is expected to be finished in about four weeks.

GENERAL NEWS ITEMS.

The Cheyenne *Leader* says sixteen U. S. Marshals are now engaged in taking the census of Wyoming Territory. The returns will be in by the 15th of July, when the Governor will order an election for members of the Legislature.

One of the fashionable churches of New York, which tried to draw a crowd by having handsome young ladies act as ushers, has been laughed out of the practice. The church got to be known by the name of "the church of the holy waiter girls."

THE "OREGON STYLE"—HOW WE CAME BY IT.—It has long been the fashion with certain editors of California—narrow-minded and ill-bred men—to sneer at Oregon journalism and to speak contemptuously of the "Oregon style." We do not remember, however, to have seen much of this in the *respectable* papers of that State; it is confined mostly to that class of journals and men who are most troubled to maintain a position which they never enjoyed by right, among gentlemen and polite society. They are that style of men, who could never leave the precincts of Fishmarket without a feeling as if they were going from home, and whose instincts would lead them straight from the doors of St Peter's down to a Five Point's dance house. As an example of who such men are, and what they say, we wish to quote the following from the *Chronicle*, hurled at the *Figaro*:

"The degraded journalistic drudge who furnishes literary swill for an obscene melodeon sheet in this city accuses a contemporary of not being able, etc"

To this the *Figaro* retorts:

"Now, all the journalists and printers acquainted with the parties involved will say that the above is nothing but senseless ribaldry, having no truthful application at all. In fact, it is blackguardism of the worst "Oregon style," well adapted, perhaps, to the *Bull County Signal*, but greatly out of character here."

Now, to appreciate the *Figaro*'s denunciation of "blackguardism," and the contemptuous comparison of it with the "Oregon style," it is only necessary to know that the writer is no other than that foul-minded and foul-mouthed man who came to Oregon from California a few years since to show Oregonians how to edit a newspaper; who, through total want of common decency, sadly disgraced his [illegible] and what friends he had, and finally left the State, in a condition further below the reach of contempt than did ever any man before or since. It is to the foul blots inflicted upon Oregon journalism by him and a few other [illegible]sians like him, whose moral rottenness has from time to time, for brief periods, infected Oregon air, that Oregon is indebted for the stigma expressed in the three words, "The Oregon style."

FROM THE DALLES.—The *Mountaineer* furnishes the subjoined news:

During the session of the County Court the County Hospital was let to Dr. T. B. Jackson, for the term of twelve months from the 15th of August, 1869, for the sum of $2,500.

Mr. William Lewis, formerly Chief Clerk in the Quartermaster's Office at Portland, passed through our city on Thursday morning en route for the Atlantic States overland.

We noticed ripe watermelons in town last Tuesday. In the course of a few days our city will be supplied with this luxury.

Dalles City is now filled with Indians from the Reservations.

Mr. Vic Trevitt has been appointed by General Crooks as Government Agent, to sell the public buildings at Camp Watson, and will leave in a few days for that post The sale takes place on the 15th inst.

We are informed that the ditch for bringing water from above the mouth of Mood River into Mill Creek is nearly completed, and the water is expected here in a few days.

Deputy Sheriff Shutts arrested a man by the name of John Riley, last Wednesday, for attempting to shoot the top of a man's head off. In default of bail he was sent up to the Tombs to await the next session of the Circuit Court.

U. S. Deputy Marshal Shutts arrested Charles Quintaro, a [illegible], on the 17th instant, for selling whisky to Indians. Yesterday he was taken before Deputy United States Commissioner, N. R. Parker, for examination, which resulted in his being bound over to appear before the next term of the United States Circuit Court.

John Baker, steward at the Empire Hotel, on Tuesday afternoon last, fractured his right arm, midway between the shoulder and elbow joint, by throwing a stone. The result, evidently, of inordinate muscular contraction.

THE QUESTION OF LAY DELEGATION.—The vote on the question of Lay Delegation in the Conferences of the M. E. Church, to have been very small compared with the entire membership in the Portland District. The *Advocate*, in furnishing the returns received to date, remarks:

"There can be no doubt that the great majority of the members of our Church, throughout the bounds of this Conference are entirely satisfied with the government of the Methodist Episcopal Church, as it has been, for the past hundred years, and would be perfectly contented to let it remain so for another century. Of the few votes cast, however, a majority will probably be in favor of lay representation. We have received the following from the Portland District, Rev. J. F. De Vore, P. E.: East Tualatin, 26 votes cast; for lay representation 13, against, 13. Rock Creek Circuit, 62 votes cast; for lay representation, 30; against, 32; majority against lay representation, 2. Lafayette Circuit, 89 votes cast, for lay representation 22, against, 17; majority for lay representation 5. Hillsboro Circuit, 40 votes cast, 14 for lay representation, against 26; majority against lay representation 12. Milwaukie Circuit, 43 votes cast; 12 for lay representation, against 31; majority against lay representation 19. Clear Creek, 16 votes cast; for lay representation 5, against 11; majority against lay representation 6. Oregon City, 22 votes cast; for lay representation, 21, against 1; majority for lay representation 20.

We learn through Rev. J. T. Wolfe, that the vote at the Dalles station, Walla Walla district, stood as follows: Number of members entitled to vote 65; number of votes cast 25; for lay representation 22, against 3; majority for lay representation 19.

CHURCH INTELLIGENCE.—The following items are obtained from the *Advocate*:

There was a full house at the dedication of the new Taylor Church, on Sunday last. Sermon by Rev. W. H. Milburn. Collection $96.

The entire receipts of the ladies' dinner, for the benefit of the M. E. Church, on Monday last, amounted to nearly $600.

The camp-meeting on Clear Creek, last week, was a [illegible]. Near twenty conversions and conversions and the Church generally revived.

The Right Rev. Bishop Morris of the Protestant Episcopal Church, has been on a tour through the Willamette valley, preaching at various important points, and looking out for future schools and churches.

A basket meeting will be held on the campground on David Nelson's place, Silverton circuit, on the 17th and 18th inst. It will be held in connection with the 4th Quarterly meeting for that charge.

The Executive Committee of the Orphans' Aid Society at Salem have determined to put up a suitable building on the State Fair ground, for the purpose of holding an annual fair and restaurant, the proceeds to be appropriated to the education of orphans.

The Indians on the Yakima reservation celebrated the 4th of July thus, as we learn from Geo. Watters: "We commenced on Saturday, about three o'clock in the afternoon, reading the Scriptures and singing the song of Moses and the Lamb. Then we harness horses on three wagons, and rids on with flags waving. At night, prayer meeting. Sabbath morning, 8 o'clock, we had class-meeting." Bro. Joe Stwirse arose and talked aloud about Jesus Christ and His gospel. We all felt happy."

Resolutions Passed

AT THE ANNUAL MEETING OF THE CHRISTIAN CHURCH OF OREGON, JUNE 28, 1869

WHEREAS, It has pleased an all-wise and merciful providence to call our beloved and faithful brother Gilmore Calhoun has been by death removed from the scenes of earth therefore

Resolved, That in the death of Elder Gilmore Calhoun the State has lost one of its most patriotic citizens the Church of God one of its purest members the family one of its most faithful counselors

Resolved, That his many virtues and exceeding labors in the cause of Christ justly entitle him to the eminent distinction which he won in society, and the grateful remembrance in which he is now held by the universal brotherhood and a wide circle of admiring friends

Resolved, That we his brethren in Christ, deeply feel the loss which the community and the Christian Church have sustained in the death of this eminent servant of God

Resolved, That we bow submissively to this dispensation of Divine Providence in sorrow and tears, and look forward with the most joyful anticipation, when we shall again renew our association with our departed brother

Resolved, That a copy of these resolutions be forwarded to the family of the deceased, and also to a number of the leading papers of the State for publication.

Resolved, By the delegation of Christians in Annual meeting assembled that we hereby invite the churches of our Baptist brethren in the State of Oregon to send delegates to our next Annual meeting to co operate with us in our deliberations in behalf of the cause of our Lord and Saviour Jesus Christ, and that their ministers be invited to labor with ours at said meeting in the great work of redemption.

A. W. LUCAS, Secretary

A few Sundays ago the pastor of a church in Ohio was catechising the Sunday school, and, among other questions, asked who wrote the New Testament. For some moments he received no reply, and was about to explain, when a bright-faced little boy arose: and, much to the amazement of pastor and school, promptly responded in a clear voice, "Donn Piatt!"

An Iowa bride on the way to church was offered five dollars by another "feller" to marry him, and accepted the offer.

H Y TRAIN *preaches* but does not always *practice*—for he patronized the Oregon Dispensary and used our medicines to cure his hands that caught those *large* Salmon. Since his lectures on Doctrine and DRUG STORE, we have had an unprecedented run for our numerous remedies, toilet articles, etc., etc. It has been said that Mr Train was induced by us to deliver that lecture, but we assure our numerous patrons that we do not use such means to obtain patronage. We do the largest trade because our druggists are the most competent and our medicines and goods are fresh, pure and cheap

The First Hebrew Benevolent Society of Portland, Oregon, will hold its regular meeting on Sunday, July 11th, at half after 1 P. M., at the Turn Verein Hall.

jy7 ISAAC N. WALTER, Sec'y.

LADIES—Clarke, Henderson & Cook received, per steamer *Pacific*, a few more of those beautiful Organdie Lawns; also, white Marseilles and Piques.

EVERY DAY, at No. 107 Front street, one door above McCormick's, you can see KANE'S CONDENSED SOAP wash *without rubbing*

THE DAY fixed to commence work on the East Side Railroad is July 1st. By that time the Company will have sufficient Railroad Iron on the way or in Portland to complete twenty miles of road Workmen without employment should be patient for the Company will give employment to a thousand men, at good wages, and of course KOHN & FISHEL will continue to sell the very best clothing in that time at remarkably low figures.

That "*Train*" passing through our city has indeed created an excitement. He claims to be on his way to the *Watchuse* Irishmen claim him as their Patriot Englishmen *don't* claim him at all, and Kohn & Fishel claim to have the largest, best and finest stock of clothing and Gents' Furnishing Goods in the city, and undoubtedly can give sufficient proof that they are selling lower than any other house in Oregon.

WHARF BURNED.—The *Commercial* says: "Galloway's wharf, two miles above Rainier, was burned last evening. We did not learn the estimated loss, or the way in which the fire communicated.

STATE TEACHERS' INSTITUTE.—The next Annual Session of the State Teachers' Association, will be held at Salem, commencing on Tuesday, July 27th, 1869, and continuing four days.

FUNERAL.—The procession which followed the remains of Mrs. Barney McKenna to Lone Fir Cemetery, yesterday afternoon, was one of the largest witnessed in this city for many months.

HUGE BOILER.—A large steam boiler, weighing eight tons, was hoisted off the deck of the *Almatia* yesterday afternoon. It is to go into the steamer *Fannie Troup*

GOLD FISH.—That tank of beautiful gold fish, brought over by Capt. Hatch, from Honolulu, may be found at Mr J. Quinn's Fish Market, on Washington street.

A Boy Again.

A company of gentlemen in Reno, were, not long since, whiling an evening away by singing songs and relating anecdotes, when one asked for the song of "Would I were a boy again;" at which "Old Piute," (Johnny K. Lovejoy) who was present, broke out as follows: "A boy again! Who would be a boy again if he could; to have the measles, mumps and itch, to get licked by bigger boys and scolded by older brothers, to stub your toes, to have the belly-ache from swallowing cherry stones, to get lousy helping Irish Mike do his sums, to have chapped hands and frozen toes, to slip on the ice, to do chores, to get your ears boxed, to get spanked with a slipper, to get whaled by a thick-headed school-master, to be made to stand up as the "dunce" for the amusement of the school, to have visitors to come to school and tell you how miserably weak and stupid you were when you were born, and to ask you what would have become of you at that interesting time in your life if your parents had not been so patient with and kind to you (of course it was all one's that he was born and his parents were in no way concerned or interested in the matter;) to eat at the second table when company comes, to set out cabbage plants because you are little, and consequently it won't make your back ache much, to be made to go to school when you don't want to, to get spelled down in school, to lose your marbles, to have your sled broken, to get hit in the eye with frozen apples and soggy snow balls, to cut your finger, to lose your knife, to have a hole in the rear of your only pair of pants when your pretty cousin from the city comes to see you, to be called a coward if you won't fight at school, to be whaled at home if you do fight at school, to be stuck after a little girl and dare not tell her, to have a boy too big for you to lick, tell you your sweetheart squints, to have your sweetheart cut you dead, affiliate with that boy John Smith whom you hate particularly because he set your nose up the week before, to be made to go to bed when you know you ain't a bit sleepy, to have no fire crackers on the Fourth of July, no skates on Christmas, to want a piece of bread and butter with honey and get your ears pulled, to be kept from the circus when it comes to town and when all the other boys go, to get pounded for stealing roasting ears, to get run by bull dogs for trying to nip watermelons, to have the canker rash, catechism and stone bruises, to be called up to kiss all the old women that visit your mother, to be scolded because you like Maggie Love better than your own dear sister, to be told of what a scorching time little boys will have who tell lies and are not like George Washington, to catch your big brother kissing the pretty school ma'am on the sly and to wish you was big to kiss too, and—and—why, d—n being a school boy again!"

Ben. Wade having seen the Chinese at work in our woolen mills and elsewhere, said, "that before ten years would pass, the people of California would be framing laws to prevent the deportation of the Chinese, with far more zeal than they now sought to prevent their coming here."

To those Democrats who are constantly prating about fancied evils from too much "radicalism," we would suggest the following from a learned judge: "The counsel will do well to pluck some of the feathers out of the wings of his imagination and stick them in the tail of his judgment"

NATIONAL

LIFE INSURANCE COMPANY,

OF THE

UNITED STATES OF AMERICA,

Washington, D. C.

CHARTERED BY SPECIAL ACT OF CONGRESS!

APPROVED JULY 25, 1868

CASH CAPITAL,

$1,000,000.

OFFICERS:

CLARENCE H. CLARK, Philadelphia, President
JAY COOKE, Chairman Finance & Executive Committee.
HENRY D COOKE, Washington, Vice President.
EMERSON W. PEET, Philadelphia, Secretary & Actuary.
R. S. TURNER, Washington, Assistant Secretary.
FRANCIS G. SMITH, M. D., Medical Director
J. EWING MEARS, M. D., Assistant Medical Director.

THE ATTENTION OF PERSONS CONTEMPLATing Insuring their lives, or increasing the amount of insurance they already have, is called to the special advantages offered by the NATIONAL LIFE INSURANCE COMPANY.

NO MONEY SENT OUT OF THE STATE.

ALL PREMIUMS RECEIVED INVESTED IN THE STATE.

THE ADVANTAGES OFFERED ARE:

It is a National Company, chartered by special Act of Congress, 1868
It has a Paid-up Capital of $1,000,000.
It offers Low Rates of Premium
It furnishes Larger Insurance than other Companies for the same money.
It is Definite and Certain in its Terms.
It is a Home Company in every locality.
Its Policies are Exempt from Attachment.
There are no Unnecessary Restrictions in the Policies.
Every Policy is Non-forfeitable
Policies may be taken which Pay to the Insured their Full Amount and Return all the Premiums, so that the Insurance costs Only the Interest on the Annual Payments.
Policies may be taken that will Pay to the Insured, after a certain number of years, During Life, an Annual Income of One-Tenth the amount named in the Policy.
No Extra Rate is charged for Risks upon the Lives of Females.
Insures Not to Pay Dividends, but at so low a cost that dividends will be impossible.

Its Policies are Negotiable.

By the Charter of the Company, certificates of obligations will be issued, agreeing to purchase its Policies at their value which, when accompanied by the Policy duly assigned or transferred, are negotiable, and may be used as collateral security, in making loans from the Company or from other parties

The Hon. Jno. E. Sandford, Insurance Commissioner of Massachusetts, in his Report for 1868, speaking of Dividends in Life Insurance Companies, says "The sooner such guarantees cease to be made, and such expectations created, the sooner Life Insurance will come to rest on its true motive, and men insure their lives for security, and not for dividends. The best and most popular companies will then be those that promise only equity, and render all that they promise, and furnish the best security, with the most upright and judicious management"

"By the Stock plan, the full cash effect of the Premium is immediately secured to the Insured, the Company taking ALL the risk By the Mutual plan, the full value in Insurance of the Premium paid, is not secured to the Policy-holder, who takes a portion of the risk himself"
